Sales Tips

- Wishbone RE Bike is made from 100% recyclable maximum durability plastic.
- This model is especially suited to high use situations such as early childhood centres and Kindergartens or where climates are extreme, eg. very wet or dry.
- Rotafox is an integrated system for easy, customized seat and frame adjustability. Developed by Wishbone for Wishbone Bike RE, Rotafox combines three-way seat and frame adjustability with a single fixing to precision fit Wishbone Bike to your child.
- All RE fastenings are stainless steel. Wheel bearings are not. These are the same zinc plated steel as on our Wooden Bikes and will last longer with a routine clean and lubrication.
- 5-year limited warranty.
- Special needs strong community following as can be a trike in highest frame setting.
- Assembly series on Wishbone Youtube - Wishbone Bike Recycled Edition Assembly.
- These valves are designed to keep a tyre inflated without caps. This is a safety requirement to meet European toy safety standards.
